

A Generation of Fire Evangelists

PROVIDED BY Christ for All Nations (CfaN)

ORLANDO, Fla., May 22, 2021 /Christian Newswire/ -- When Christ for all Nations (CfaN) recently sent nearly 100 evangelists to Tanzania, East Africa, the results were breathtaking. In only three weeks, they held 1,204 campaigns - often with thousands in attendance - and recorded over 316,000 decisions for Christ! These evangelists are the latest group of students to complete CfaN's intensive training in mass crusade evangelism - the CfaN Evangelism Boot

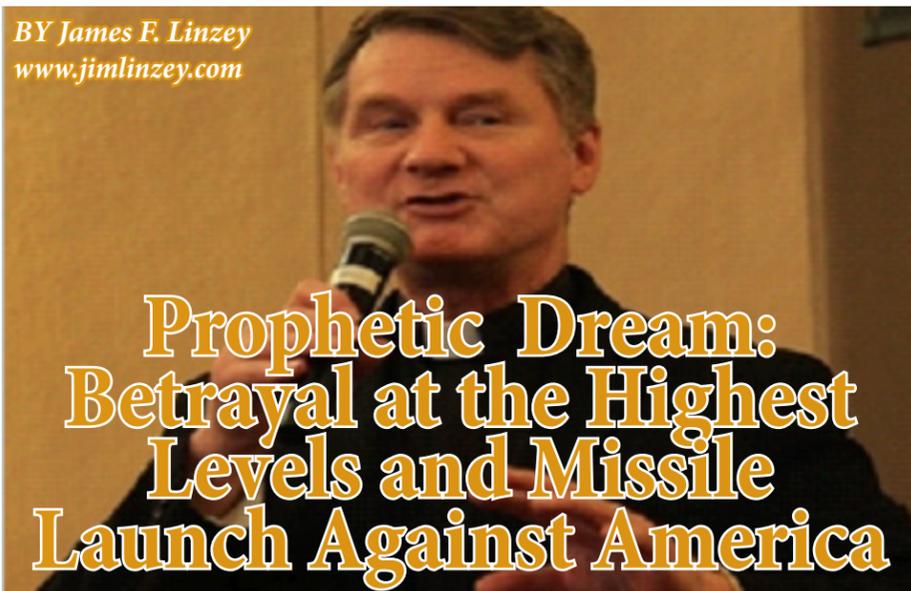

camp. It's a deep dive into evangelistic ministry imparted by a team that has seen more than 80-million documented decisions for Christ in the last 33 years! There's nothing else like it in the world. The CfaN Evangelism Bootcamp was founded in 2020 by CfaN's President and Lead Evangelist, Daniel Kolenda, the successor to Reinhard Bonnke. Kolenda says, "The Evangelism Bootcamp is an integral part of CfaN's strategy to reach as many souls in the next ten years as our

ministry did in its first 40— an effort we're calling 'The Decade of Double Harvest.'" Kolenda hopes to spark a movement of evangelism that will see a billion souls saved in the coming decades. Students of the CfaN Evangelism Bootcamp undergo three months of intense training, akin to military training, designed to initiate them into a ministry of effective mass crusade evangelism. Students are immersed in a spiritually charged atmosphere with constant prayer,

worship, the study of Scripture and evangelistic outreach. Their studies focus on theology, the practical aspects of ministry and how to organize and run effective mass evangelistic events. They put their training into practice on the streets in Orlando, Florida, where the last Bootcamp, in just three months, led more than 800 people to Christ one-on-one. The CfaN Evangelism Bootcamp culminates with a 3-week "Initiation Trip" on the field - where students put the lessons learned in class into ac-

tion in the real world. This hands-on apprenticeship gives them the chance to use their spiritual gifts, refine practical skills, and see firsthand the harvest in which God has called them to participate. And the results so far have been staggering. Hundreds of thousands have professed faith in Christ, there have been testimonies of miraculous healing and deliverance abound. And the Bootcamp students gave away more than half a million copies of a booklet by Daniel Kolenda, written to help new converts take steps to deepen their nascent walk with God. The Initiation Trip is an opportunity for the students to participate in the innovative strategies CfaN is using to further the Decade of Double Harvest vision. These include ministering to hundreds of thousands of children in "Kids' Crusades," using customized "Gospel Trucks" to hold "Village Crusades" in every possible location, and the "Operation Decapolis" strategy, where multiple massive Gospel crusades are held simultaneously in different cities through out a given nation. All these methods are used in close co-operation with local churches. Once someone decides to follow Christ, their information is shared with a nearby congregation who takes up the responsibility of discipleship and "follow up." This system helps prevent new Christians from falling through the cracks and simultaneously spurs momentum for upcoming large-scale Gospel Campaigns that Evangelist Kolenda will lead. All in all, the number of lives changed by the Decade of Double Harvest strategy generally, and the Tanzania Initiation Trip specifically, serve as compelling evidence that the CfaN team takes its mission seriously and uses its resources efficiently. To learn more about the Evangelism Bootcamp, the success of the Tanzania Initiation Trip, and upcoming Great Gospel Campaigns, check out www.cfan.org or follow the Evangelism Bootcamp Blog: www.cfan.eu/evangelism-bootcamp-spring-2021

Prophetic Dream: Betrayal at the Highest Levels and Missile Launch Against America

Chaplain Linzey speaking at the Airman-Marine Memorial Chapel at MCAS Miramar, San Diego, California (2018).

OPINION, June 1, 2021 /Christian Newswire/ -- The following is submitted by James F. Linzey, he is available for comment: From 1988 to 2021, I have had numerous prophetic dreams concerning America. Not one has contradicted another. All have been 100 percent harmonious and have been published for the edification of the public. I have never claimed that these are prophecies, because they are merely dreams of a prophetic nature. Regrettably, some of them came to pass before I dreamed them, and some after. Some have not yet come to pass, but what I saw in those dreams have been encouraged by some among the liberal left. I am referencing concentration camps where Christians and patriotic citizens might be placed. Such camps already exist. I recently had another prophetic dream. On Sunday, May 9, 2021, I was driving from Okla-

homa to California where I had been visiting friends and ministering to one of them. I stopped along HWY 40 West and rested near Truck Stop 40. There, I had another prophetic dream of turbulent times in America—possibly the end of America as we know her. In the dream, I was in a military command and control center. The commander had left for the evening as the evening shift, comprised of military personnel, stood the watch. There, in the command and control center, was an incoming missile detection system. For some strange reason the commander left it off as she retired for the evening, leaving America defenseless and vulnerable to an incoming enemy missile attack. America was without a detection system in operation. Questions lingered—was she deliberately negligent in order to leave America defenseless and to allow America to be annihilated? Was this a commu-

nist plot? Then, one of the military men who was keeping the watch turned the missile detection system on. It lit up. All its lights were on. America was now capable of detecting any enemy missile launch aimed at her. The military personnel were on alert. The soldier who turned the system on had received word that that an attack was imminent—it was going to happen. He then proceeded to phone the commander to let her know that the incoming missile alert system that she left off was now on. He and another military member who was on duty there knew it was going to happen. They just did not know when. This is not a prophecy in which all the details must come to pass the way I saw it. Dreams often employ symbolism. What happens in such dreams may actually unfold in a different way with the same objective coming to pass. I am simply reporting what I saw. I am not prophesying. Unfortunately, this came to pass at Pearl Harbor on

Dec. 7, 1941, at the Pentagon on September 11, 2001, and possibly on other occasions not reported by the mainstream media and the U.S. government. There are grave concerns that this will happen again in the future. Chaplain Linzey is a retired Army chaplain, currently serving as a Southern Baptist chaplain with the rank of Lieutenant Colonel in the DoD-recognized United States Army Volunteer Reserves. On active duty, he served as the Command Chaplain for Cluster III of Operation Noble Eagle II under Homeland Security, headquartered at White Sands Missile Range, New Mexico, supervising the religious programs for 12 Air Force and Army installations in the Southwest; Command Chaplain of the 5035th Garrison Support Unit, Fort Bliss, Texas, supervising the religious program for the largest Mobilization and Demobilization mission in the continental United States; and as the first full-time chaplain for the Leader's Training Course under the US Army Cadet Command at Fort Knox, Kentucky.
